For over 60 years, we’ve been developing and manufacturing high performance flooring using the latest advanced technologies, creating ranges of human-friendly and eco-conscious sheet flooring fit to grace any commercial environment. Whether you prefer a more traditional aesthetic or a contemporary look, our stone collection carries a variety of designs engineered with precision to suit your space.
Overall, the resilient market has been expanding in all parts of the globe. Aesthetic-wise, stone visuals have been steadily rising from 2011 to 2016 and is still increasing in the global flooring market.

### Flooring Market Share

#### 2011

- Carpet 48.2%
- Resilient 11%
- Wood 9.1%
- Stone & Ceramic 9.1%
- Rubber 3%
- Laminate 6.6%
- Rug 13%

#### 2016

- Carpet 41.5%
- Resilient 16.5%
- Wood 10.5%
- Stone & Ceramic 12.7%
- Rubber 0.8%
- Laminate 5.5%
- Rug 12.2%

Features & Benefits

Excellence in Design & Embossing Technique

The precise merging of metal alloy inks with the undulations in the emboss delivers a visual that exceeds the replication of the natural raw material. The large size tile designs of each visual have been carefully developed to capture the matte and glossy effect of natural marbles, and each tile emboss has been architecturally structured to give the effect of real stone finishing.

M-E.I.R Technology (Multi-Embossed in Registered)

LG Hausys's new advanced *M-E.I.R technology which uses a new type of engraving process gives each plank a different gloss effect and texture. Through this technique, our Stone Collection creates designs that are the closest realistic embodiment of authentic stones.

* M-E.I.R

Alignment of Print & Emboss
Different Gloss Levels per Plank
The Marble Collection captures the beauty and texture of natural stones by applying the latest breakthrough technology in sheet manufacturing.

Through careful design research, analysis and study of real marble finishing, this collection displays the natural subtle textures, illuminating pearl accents and depth shown in real marble flooring.

All of our 5 luxurious visuals come in a selection of different colors that can ensure a perfect selection for any commercial space.

---

LG Hausys Floors
The Industrial Collection embodies the natural beauty and raw nature of stones and seamlessly crafts each detail using our unparalleled embossing and printing technique.

In addition to its incredible realism, both visuals have been meticulously designed for easy installation. The precise combination of printed metal alloy and emboss gives a 3 dimensional look that surpasses other standard replication sheet products.

All 2 handcrafted visuals come in a selection of different colors that can ensure a perfect selection for any commercial space.
